**Subject:** Testimony in Support of Project

I am unable to attend the hearing that will take place on August 27, 2019. This is my written testimony:  
I am in favor of this project. I believe the benefits of the LNG export terminal far outweigh the risks. I believe all of the risks can be managed and minimized. We need help with our economy on the southern oregon coast and this project will be an economic boost to the entire west coast of the U.S. It is time to take action and

make something happen that will benefit everyone.

Sincerely,

Jim Hough
