**Follow Up Flag:** Follow up  
**Flag Status:** Flagged

To Mr. Hearley,

I am against permitting Jordan Cove for many reasons here are a few. I it puts our waterways at risk and it is detrimental to the fishing and tourist industries.

Also- Pembina has failed to demonstrate that the Jordan Cove LNG project is consistent with the enforceable policies of Oregon's Coastal Management Program.

The project is not consistent with Statewide Planning Goals:

Statewide Planning Goal 6: "[t]o maintain and improve the quality of the air, water and land resources of the state."

Thanks for listening,

Thanks,

Alan
