

Public Comment to the Coos Bay City Council  
Jordan Cove Energy Project (#NWP2017-41/#CP17-494-000/#CP17-495-000)

23 SEP 2019 7:02 L

Dear Councilors,

I strongly oppose the proposed Jordan Cove Liquefied Natural Gas (LNG) and Pacific Connector Pipeline project because it will cause irreparable harm Oregon's beloved coastal communities, natural resources and local economy, and there is no public need for the project.

Additionally, the company has not acquired many of the local and state permits necessary for federal consistency including the 401 Water Quality Certification. The Council will find this project is not consistent with the Oregon Coastal Management Plan. On behalf of myself and future generations, I ask you to oppose the proposed Jordan Cove Liquefied Natural Gas (LNG) and Pacific Connector Pipeline project.

Respectfully,

*Lauralyn Eumanis*
