

Chief's Message

Welcome to the Coos Bay Fire Department web-site

On behalf of the men and women of Coos Bay Fire & Rescue, welcome to our department web-page.

Although comprehensive, the following pages only tell part of the story about the dedication, pride, and professionalism with which fire department members serve the Coos Bay community.

The Fire Chief and Battalion Chief's are responsible for establishing policy, planning operations, emergency management, budgeting, and managing expenditures, supplies, facilities and personnel. We also continually evaluate operational effectiveness and strive to implement improvements.

The administration focuses upon the fire department's effectiveness in managing the city's fire protection system in order to minimize loss of life, property, personal injury and environmental damage from fire, accidents, medical emergencies, and hazardous materials releases.

Again, welcome to our web-page. If you have any questions or suggestions, please contact me at 541-269-1191.

Stan Gibson, Fire Chief
