

EGYPTIAN THEATRE SIGN DIMENSIONS

Calculated from c1935 street sign, to fit remodeled entryway of 28'-0" with heights to be proportional as per above approximate dimensions. Three line internally illuminated center in white/blackout changable text (included). Exposed neon (Classic Red) tubing and and painted/coated surfaces.

Total can depth (thickness) to be embedded into new projecting canopy
with support structure from rear.

Rim lights of exposed bulbs (LED? Incandescent?)

White neon outlines lower scroll work. 3-D "Bug" at top (see historic image)
