Can you please clear up on the RFP the merchant volume? The RFP shows for the "Calendar Year" but the numbers below that support a monthly average and not annual numbers.

Total sales volume listed: \$20,092 is annual sales volume for 2017.

Total transaction count: 400 is total transaction count for 2017.

Monthly transaction average: 33 ($400/12=33$)

Average transaction amount: \$50 ($\$20,092/400=\50.23)
