TO: Mayor Shoji and City Council

FROM: Jim Hossley, Public Works and Development Director

Through: Rodger Craddock, City Manager

ISSUE: Approve Purchase of Turf Mower - After the Fact

BACKGROUND:

April 29th the City's 19-year old turf mower's transmission failed. This piece of equipment is used to mow our parks, the Hollering Place, ball field, and boat ramp areas. This time of year the grass is growing rapidly and turf mowing is an important activity performed by the City's maintenance staff. It is not cost effective to replace the transmission of a mower of this age. It is also not advisable to purchase a used turf mower. The mower has been on the capital equipment replacement list for the last two years, but had to be bumped due to more immediate equipment replacement needs.

There are two firms that have gone through the State of Oregon procurement process and have a contract to provide turf mowers to State agencies as well as local governments. The mowers bid by these two firms meet the City's need. Purchasing from either of these firms means the City does not have to go out to bid since the State of Oregon has already done so.

The two firms and cost are as follows:

Western Equipment Distributors, Inc. (TORO)	\$27,351.74
Hobi Equipment (John Deere)	\$25,233.83

Staff recommends the John Deere mower. Because of the immediate need for the replacement mower and to minimize our downtime, staff has already placed the order for the John Deere product.

Please note that this turf mower cannot do roadside brush mowing. Council members may be aware that the City's 23-year old brush mower tractor also no longer works and cannot be reasonably repaired. Staff is currently searching for a reasonably priced used brush mower.

ADVANTAGES:

Immediate purchase of the turf mower means the City will be able to keep up with the demand for turf mowing. The new mower will have a three year warranty. The John Deere is on the State of Oregon procurement contract, which means the City can purchase the equipment immediately.

DISADVANTAGES:

Other than price, none noted.

BUDGET:

There was \$35,000 budgeted for this piece of equipment in the Major Capital Reserve Fund 34 for in this fiscal year. However, other equipment needs and funding limitations originally precluded us from going ahead with the purchase. There is currently funding available in Fund 34 to make this purchase for \$25,233.83.

RECOMMENDATION:

If it pleases the City Council, approve, after the fact, the purchase of a John Deere 1445 turf mower from Hobi Equipment for the cost of \$25,233.83 delivered.
