

CITY OF COOS BAY CITY COUNCIL
Agenda Staff Report

MEETING DATE	AGENDA ITEM NUMBER
April 21, 2015	

TO: Mayor Shoji and City Councilors

FROM: Jim Hossley, Public Works Director 

THROUGH: Rodger Craddock, City Manager 

ISSUE: Oregon Parks and Recreation Department, Local Government Grant Program (LGGP) required resolution to support grant application.

BACKGROUND:

Mingus Community Pool was constructed in 1954, and underwent facility improvements in the late 1990's. The facility is equipped with outdoor pool, 130,000 gallons, waterslide, bleacher area, bathhouse, restrooms, outdoor lighting, lobby, receptionist counter and public parking. Over the years the facility has deferred capital maintenance to the point the below items can no longer be deferred. Some issues are considered life safety issues, and will result in a major injury to either staff or visitors in the event of failure. Staff has identified a grant through Oregon Parks and Recreation Department that will assist the City with these deficiencies. The grant is through the Local Government Grant Program through Oregon Parks and Recreation Department, which is a 40/60 match and requires local government commitment through acknowledgement of a resolution. The cost estimate to address the repairs is; \$371,769.50, City match is \$149,996.00.

Issues that need attention; Life safety issue #1: Remove the two (2) above grade 2500 gallon surge tanks used for pool circulation and metal frame. Construct below grade (5,000 gallon) filter vault equipped with D.E. Filtration manifold to filter pool water). Life safety issue #2: Pool water sanitation, currently pool water is treated with chlorine (Pulsar 3" tabs) and for PH control (Muriatic Acid). Both forms of water sanitation are exposed to the open environment in the mechanical room and are not properly ventilated per OAR 333-60-150 (4). Safety issue #3: swimming pool surface is plaster and the surface is worn down to the point where the concrete is exposed. Visitors using the pool often end up with an injury when they brush up against the exposed concrete the solution is to re-plaster pool surface. Safety Issue #4: Interior wall plumbing for the shower rooms (Men's & Women's) is leaking within the wall, which will require the demolition of the walls and fixtures to include the tile surface in order to expose the plumbing. The objective is to replace all interior wall plumbing in the shower area, replace shower fixtures, and re-tile shower/restroom.

ADVANTAGES:

Stay in code compliant and continue to operate pool.

DISADVANTAGES:

None

BUDGET IMPLICATIONS:

Grant match of \$149,996.00 capital account.

RELATED CITY GOAL:

To maintain and improve the City's physical infrastructure and provide quality services for current and future citizens

ACTION REQUESTED:

If it pleases the City Council, approve of the attached resolution in support of the Mingus Community Rehabilitation Grant and authorizing the City Manager to sign the grant application.
