## TEMPORARY STREET CLOSURE

The City of Coos Bay authorized Benny Hempstead Excavating, Inc. to perform a sewer line replacement project located along South 10<sup>th</sup> Street. This line is badly damaged due to its age, and it is in need of replacement to help ensure the sewer line is in good working condition for years to come. The limits of construction begin approximately 50 feet south of Lockhart Avenue and extend northerly approximately 750 feet and then easterly approximately 200 feet. This work commenced construction on Monday, May 13<sup>th</sup>; however, due to unforeseen circumstances, it needed to be placed on hold. Work has been rescheduled, and it will re-commence on Tuesday, May 28, 2013.

This work will require street closures and detours. During the day, the road shall remain closed to through traffic between Lockhart Avenue and Johnson Avenue. However, local traffic will be allowed to enter and exit their property. At night and on the weekends, the road will be open to through traffic. Construction is anticipated to last for approximately four (4) weeks, weather dependent.

This project is part of the many projects associated with the City's aggressive Inflow and Infiltration Reduction and Sewer Rehabilitation Program. The project is being funded by a loan and grant obtained from Oregon Infrastructure Finance Authority (IFA). Any questions can be directed to the City of Coos Bay Public Works and Development Department at 541-269-8918.
